

Curriculum Vitae

About

I'm Lucas Francesco, 19 yo. I'm currently living in Sao Paulo.

Email: lucas.francesco93@gmail.com

Telegram: [@Uramekus](https://www.telegram.com)

Skills i have that I think its worth talking about

- Mechatronics technician By ETEC Basilides de Godoy
- Knowledgeable around PIC/AVR/Z80 and some other μ controllers
- RISC-V Assembly and some DSLs for hardware design (Verilog, Chisel)
- Notions about bootloading, safeboot(signed boot chain), knowledgeable about kernels overall
- CAD and drawing tools, prototyping and handling of CNC machines (I have experience especifcally with a Romi 30D lathe but I've been trained to use a CNC miller and other tools), manual lathe operation etc.
- Its been 10 years since I'm a Linux user, I know a lot around it, I'm slightly active on the Gentoo community, I know how to use most tools around the linuxverse and [i have a Gentoo overlay](#)
- I do some programming, generally in Rust/RISC-V Assembly/APL/C98
- Some knowledge about newer APIs like Vulkan, have a bit more of knowledge about using OpenGL
- I know how most container systems works in Linux, i also have knowledge about build systems and CT

Languages:

Human

- Portuguese: Native
- Spanish: Intermediary
- English: Advanced
- Italian: Intermediary

Machine

- Lots of exposure but never/rarely used it: C#, R, Nim, Haskell, XeLaTeX, Ruby, Java, APL and Javascript
- I know up to the point of making it work somehow: C++17, python3, Bash and python2
- The ones I have a bit more of knowledge about: Unix C, Markdown and Rust
